BOARD OF HEALTH REPORT FOR LONDONDERRY.

During the past year the Board of Health of this Town has been called to fumigate the houses where scarlet fever and other contagious deceases occurred; none however proved fatal except a few cases of consumption. A few nuisances were investigated. The public should bear in mind the following, which is Section 12, of the Public Health Laws of New Hampshire. "If a person shall place, leave, or cause to be placed or left, in or near a highway, street, alley, public place or wharf, or shall allow to be exposed, unburied, any animal or other substance liable to become putrid or offensive or injurious to the public health, he shall be fined not exceeding twenty dollars."

ANNUAL REPORT OF SCHOOL BOARD.

It was thought by your chairman that it might be well to make a slight change in the written report this year; so your school board has reported in detail the schools of which they had special charge.

It is with great pleasure we report the steady progress of school No. 1, which began with the good work of Mrs. Richardson and was then taken up and carried on so faithfully by Miss Barndollar, who having the welfare of the pupils so much at heart, was able to arouse their enthusiasm so that now this school will compare favorably with any in town. Parents and friends of the school are truly grateful to her for the good work accomplished.

Of school No. 2 we would say that it always stands out very clearly as one composed of unusually interesting and dependable pupils. Under Miss Barndollar great progress was made. Then came a change of teachers, which under the circumstances, was especially to be regretted. However, Miss Bailey accomplished much good work, and was a teacher who by diligence and great patience accomplished good results.

School No. 5 is to be congratulated in retaining the services of Miss Bachelder during the year, thus being able to make steady progress, without change of methods, and the many interruptions that result from such changes. Miss Bachelder is a teacher that fully deserves the high appreciation in which she is held by pupils and parents.

Your committee in the north part of the town had special charge of Districts 6-7-8. Number 6 was unfortunate in having a change of teachers each term. When each teacher does her best the change must necessarily retard the progress of the school.

The spring term was taught by Miss Katherine Greeley.

This was Miss Greeley's first experience in teaching, and in some ways she showed marked ability.

The fall term was taught by Miss Z. Grace Stevens a teacher of experience and thorough in her work.

The winter term was taugnt by Miss Bertha Griffin of Litchfield who was interested in her work and gave good satisfaction.

We regret to note in looking over the School Register, the large number of dismissals during the year. This school is of medium size and is favored in some ways. While it is an average with the other schools in town we feel that with an energetic teacher and the co-operation of the parents it should be pushed more to the front.

No. 7 has been more fortunate in having the same teacher, Miss Luella M. Campbell, throughout the year. This is one of the largest schools in town, but Miss Campbell seemed equal to the task and managed the school in a pleasant manner, with good results.

No. 8 is another of the largest schools in town with more pupils in higher grades than any of the others, but has also been unfortunate in change of teachers.

The spring term was taught by Mrs. Marion Watts a teacher of experience and a graduate of the State Normal school. Her health failed and she was obliged to give up the work.

The fall term was taught by Miss Mary L. Mooar of Manchester who came highly recommended and sustained her reputation. Under their efficient management good progress was made in the different branches.

The winter term was taught by Miss Grace Stevens who was transferred from No. 6. On account of sickness your committee was unable to be present at the closing exercises. We have no doubt but that Miss Stevens' reputation as a successful teacher would be fully sustained.

We hope that parents will make an effort to have their

children regular in attendance; by so doing better progress can be made and the school be more satisfactory both to parents and teachers.

The member of the School Board under whose special supervision are district Nos. 3, 4, 9 and 10, feels that the teachers in these schools have labored faithfully for the advancement of the children under their care, and that special praise is due school No. 3, under the instruction of Miss Hadley, for the excellent progress made in arithmetic, physiology and geography. Also in school No. 4, for advancement in geography, physiology and English.

The pupils of No. 10, were conveyed to the room of No. 9, which was taught by Mr. King. Although this school has been very unsatisfactory in the past, Mr. King entered upon his duties under these discouragements and has succeeded in arousing a great deal of enthusiasm having several that are striving to enter Pinkerton Academy at its next commencement. Commendable progress has been made in arithmetic, physiology, English and book-keeping.

In district No. 9 and 10, we feel compelled to urge upon the parents the necessity of regular attendance of the pupils at every session of school, there being a very large number of absences noticed in these districts.
